

Upper Limb (Brachial Plexus)

Nerve	Synonymous/Alternative Names	Nerve Root Value
Musculocutaneous	Coracobrachialis nerve	\$C_5, C_6, C_7\$
Axillary	Circumflex nerve	\$C_5, C_6\$
Radial	The "Great Extensor" nerve	\$C_5, C_6, C_7, C_8, T_1\$
Median	The "Laborer's nerve"	\$(C_5), C_6, C_7, C_8, T_1\$
Ulnar	The "Musician's nerve"	\$C_8, T_1\$ (often \$C_7\$ via lateral cord)
Long Thoracic	Nerve of Bell; External respiratory nerve	\$C_5, C_6, C_7\$
Thoracodorsal	Nerve to latissimus dorsi	\$C_6, C_7, C_8\$

Lower Limb (Lumbar & Sacral Plexuses)

Nerve	Synonymous/Alternative Names	Nerve Root Value
Femoral	Anterior crural nerve	\$L_2, L_3, L_4\$
Obturator	Adductor nerve	\$L_2, L_3, L_4\$

Nerve	Synonymous/Alternative Names	Nerve Root Value
Sciatic	Ischiadic nerve	\$L_4, L_5, S_1, S_2, S_3\$
Tibial	Internal popliteal nerve	\$L_4, L_5, S_1, S_2, S_3\$
Common Peroneal	Common fibular nerve; External popliteal	\$L_4, L_5, S_1, S_2\$
Deep Peroneal	Anterior tibial nerve	\$L_4, L_5, S_1\$
Superficial Peroneal	Musculocutaneous nerve of the leg	\$L_5, S_1, S_2\$

Trunk and Diaphragm

Nerve	Synonymous/Alternative Names	Nerve Root Value
Phrenic	Internal respiratory nerve	\$C_3, C_4, C_5\$
Pudendal	The "Somatic nerve of the perineum"	\$S_2, S_3, S_4\$

Clinical Textual References

1. **Gray's Anatomy:** Often cited for the comprehensive breakdown of the Brachial Plexus (\$C_5-T_1\$) and the specific contributions of the Lateral and Medial cords to the Median nerve.
2. **Moore's Clinically Oriented Anatomy:** Frequently used for the "synonymous names" based on clinical presentation (e.g., calling the Ulnar nerve the "Musician's nerve" due to its role in fine motor finger control).

3. **Netter's Atlas of Human Anatomy:** Provides the gold standard for visualizing the root values and their progression through the plexuses.
